FEBRUARY 1988

ADDRESS LIST

REGIONAL AND SUBREGIONAL LIBRARIES

FOR THE BLIND AND PHYSICALLY HANDICAPPED

In cooperation with a network of regional and subregional libraries, the Library of Congress provides a free library service to persons who are unable to read or use standard printed materials because of visual or physical impairment. Books and magazines in recorded form (talking books) or in braille are delivered to eligible readers by postage-free mail and are returned in the same manner. Specially designed phonographs and cassette players are also loaned free to persons borrowing talking books.

The regional library or libraries listed under each state provide a full range of library services to handicapped readers. In many states, readers receive talking books through subregional libraries, which are local public libraries having collections of current materials and direct access to the resources of their regional libraries. In addition, they offer their handicapped readers reference and reader's advisory services. Eligible American citizens residing in foreign countries are served directly by the National Library Service for the Blind and Physically Handicapped (see page 20).

For further information or application forms write to the library serving your area.
